Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. The drawings are objected to because:

a.) In Fig. 2, applicant has used the reference numerals 24, 26, 27 and 28 to designate multiple components of a tap updating unit (21). Even though the corresponding numerals represent the same type device, examiner suggests applicant use a method to denote that each device is in its own right a distinct device. Ex. For the delay units (28), examiner suggests applicant use 24a, 24b; 28a, 28b, etc.

b.) In Fig. 3, applicant has used the reference numeral 202 to designate multiple components of an equalizer (20). Even though the corresponding numerals represent the same type device, examiner suggests applicant use a method to denote that each device is in its own right a distinct device. Ex: Examiner suggests the use of 202a, 202b.

c.) Examiner suggests applicant apply the suggested method for reference numerals with respect to Figs. 4, 5, 6, and 7.

Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The

Art Unit: 2634

replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

2. The disclosure is objected to because of the following informalities: On page 1, applicant's first paragraph "Cross-Reference To Related Application" is incomplete.

Appropriate correction is required.

3. The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Allowable Subject Matter

4. Claims 1-18 are allowed.

5. The following is a statement of reasons for the indication of allowable subject matter: The instant application discloses a demodulation circuit for demodulating a multilevel digital modulation signal. Prior records fail to disclose a demodulation circuit comprising "a training signal generator for outputting an either one of an in-phase component and a quadrature

component signals of a training signal, the other one of which is zero..." along with the remaining limitations of independent claims 1 and 10.

Conclusion

6. This application is in condition for allowance except for the following formal matters:

a.) Specification objections as noted above.

b.) Drawing objections as noted above..

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
